

Malaviya National Institute of Technology Jaipur Department of Humanities and Social Sciences

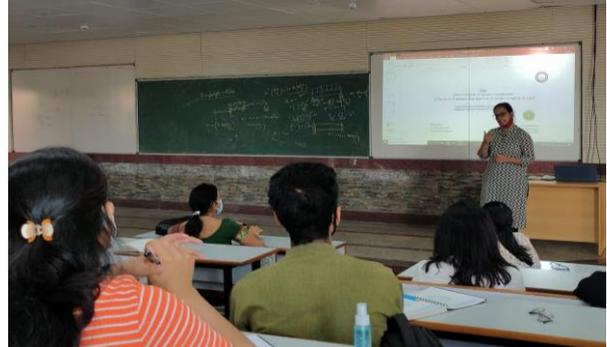

HUM PALS: PEER ACTIVE LEARNING FOR SCHOLARS

A report of Session conducted on 26 March, 2021

The third activity of HUMPALS, was held on March 26, 2021, at 11:00 a.m., in VLTC. Adhering to the norms of the pandemic, special care was taken to maintain social distancing among the participants. The interaction began with a concise introduction of this noble and novel initiative, by Prof. Manju Ma'am, head of the department. She laid emphasis on the need of open discussions amongst scholars to develop more concrete knowledge on the topic and facilitate quality research, as it is rightly said, "the more we share, the more we learn". The session was then taken over by the presenter for the day, Ms. Sumedha Bhatnagar, a research scholar in the domain of Economics from the Department of Humanities and Social Sciences. The topic under discussion was "Determinants of Green Investment: A Study of Enablers and Barriers of Green Finance in India".

Faculty members & Research scholars of the department

Presentation by Ms. Sumedha Bhatnagar

Research scholars and faculty members during the session

Felicitation of certificate to the presenter by Prof. Manju Singh

The session beautifully began in the form of a story telling, wherein the presenter narrated her journey of research to the fellow scholars; while sharing her learnings, she also delved upon the various challenges she faced throughout, and those served to be fruitful to the new scholars in the department who have just begun their research journey. The session gained interactive momentum and the scholars gave their feedbacks, had many queries to be resolved, and the discussion followed gradually. The faculty members also actively indulged in the discussion and shared their feedback on various aspects of research involving green economy, which can be incorporated in the study. The varied perspectives formed a spectrum of multidisciplinary learning.

Some of the topics touched upon during the session included green growth, green finance, & green investment. The scholars discussed the green industries & technologies for conserving the environment, which was followed by an extensive debate on instruments of green finance and various upcoming sectors of green economy, nationally as well as internationally. Seminal articles & reports pertaining to the topic were delved upon. Most of the queries of the fellow scholars were pertaining to the sampling and data collection techniques.

Overall, it is a wonderful venture undertaken by the department which provides opportunity to the research scholars to indulge in fruitful interactions and broaden their perspectives and ideas in the research field. The activity concluded with a token of thanks by the team and the presenter was felicitated with a certificate. The next HUM PALS presentation will be given by Mr. Mohit Joshi, which will be held on 30th April 2021.
