

Visit of Mr Prateek Srivastava research scholar at Centre for Energy and Environment MNIT Jaipur to Oak Ridge National Laboratory, USA under BHAVAN Fellowship of DST GoI

Mr Prateek Srivastava, research scholar at Centre for Energy and Environment was awarded BHAVAN Fellowship by DST GoI. Mr Prateek has been working at Oak Ridge National Laboratory, USA during Jun - Dec 2017. During the stay, he repaired detailed calibration model of the radiant cooling and integrated building system using EnergyPlus software. He also developed HVAC control strategies for building using calibrated building model and worked on the experiments for testing of HVAC system alongwith analysis of high efficiency dehumidification system using EnergyPlus software.
