Vision

“To create a centre for imparting technical and managerial education of international standards and conducting research at the cutting edge of technology to meet the current and future challenges of technological development.”
About MNIT

Established in 1963 as a joint venture of the Government of India and the Government of Rajasthan, Malaviya Regional Engineering College, Jaipur started functioning from its temporary campus at Pilani with 30 students each in Electrical Engineering and Mechanical Engineering. The college shifted to Jaipur in 1965. The great visionary, Prof. V.G. Garde, as its first Principal, moulded its destiny, with his characteristic elan, into a renowned Institute.

The effort to maintain the high standards and committed approach of the College to the cause of technical excellence was recognized by the Ministry for Human Resource Development and University Grants Commission, New Delhi which granted it the status of a National Institute of Technology and Deemed University on June 26, 2002. It is one of the 30 NITs established in the different states of the country. Governed by the NIT Council, the Institute has four statutory bodies, namely, the Board of Governors, the Finance Committee, the Building and Works Committee, and the Senate. The Institute is fully funded by MHRD, the Government of India, New Delhi.

Spread over 312 acres of lush greenery, the campus of MNIT enthrals and inspires. The Institute is actively engaged in research, consultancy and developmental activities and collaborates with leading industrial houses and IT companies in various projects.

Quality Policy: MNIT shall strive to impart knowledge in such a manner as to achieve total satisfaction of students, parents, employers, and the society.

Institute Motto: योगः कर्मसु कौशलम
Malaviya National Institute of Technology Jaipur is one of the centres of excellence in the country established by the MHRD, Government of India. The institute formerly known as Malaviya Regional Engineering College Jaipur was established in the year 1963, as a joint venture between the Government of India and Government of Rajasthan. It is a matter of great pride that the institute is well known for its excellent academic and extra-curricular standards. It is actively engaged in research, consultancy and developmental activities.

The Department of Management Studies, operational since 1996, is playing a pivotal role in developing industry-ready managers. The Department actively participates in management fests, seminars and has represented MNIT in various events. Dedicated faculty nurtures the budding leaders through case-based quality teaching. Industry-institute interface is strengthened when students undergo 45 day summer internship and full semester live project. Focus is on a holistic and 360 degree development, transforming students into world leaders by imparting quality education, be it human relations, operational efficiency, marketing strategy or financial tactics.

The institute is flourishing under the dynamic leadership of Prof. K.K. Aggarwal, who is the Chairman, Board of Governors. Many eminent persons from different parts of the country are on the statutory bodies and are helping MNIT with their vast and rich experience.

Prof. I.K. Bhat
Director, MNIT Jaipur
Malaviya National Institute of Technology is one of the premier educational institutes of India. The MBA program offered by the Department of Management Studies is designed to provide quality management education and impart value by grooming future managers. The Institute seeks to reach the zenith of excellence and strives to become the leader in its objective of imparting quality management education.

Our endeavour has been to develop an ideal business school, one which blends business practices with conceptual understanding that will advance the evolution of strategies best suited to promote a vibrant business and working environment even in under-privileged and under-managed sectors. What we are aiming at is a business school, which recognizes the universal application of management discipline in all fields of business activities and social life.

Our students are well-equipped with management knowledge and practices. They are diligent and inquisitive, and have undergone an exhaustive two-year schedule in various management specializations. Experienced faculty have put in meticulous efforts in personality development and capacity building of these aspiring managers. I am sure they will be able to prove their worth and value to the organizations where they work in future.

Prof. A P S Rathore
Head, Department of Management Studies
The Department of Management Studies was started in the year 1996 as a Centre of Management Studies and Industrial Collaboration under self-finance scheme. Since then, DMS has been playing a seminal role in the growth of corporate sector and management education in India. We groom future business leaders by following a judicious blend of theory and practice, using highly innovative teaching pedagogy. The Department offers flagship MBA and Doctoral programmes. It offers regular two year full-time Postgraduate degree in Management to graduate engineers, architects, pharmacists and commerce graduates. During last 16 years, around 600 students have completed their MBA from this Department. The Department also offers full-time and part-time Doctoral programme in Management.
DMS has well-equipped lecture and seminar halls, with state-of-the-art facilities, creating a fine ambience in which students hone their business acumen through presentations and seminars.

DMS has the privilege of having two mini-auditoriums to conduct lectures, seminars and paper presentations. Each of these has capacity to house 200 people at a time.

24*7 Wi-Fi connectivity in the entire campus (including hostels).

Well-stocked computerized Central Library with air-conditioned reading rooms, housing a comprehensive collection of 145000+ books and journals.

The Computer Centre helps DMS to harness the role of technology as a critical enabler in all its operations.

The Sports Complex provides facilities for sports, games and other co-curricular activities.

ICICI Bank Ltd. and a full-fledged Dispensary in the campus add to the state-of-the-art infrastructure.
The Department of Management Studies would be in line with premier B-Schools in the country. DMS aims at creating its own position in the field of Management. The DMS will develop a separate Corporate Interaction Cell which will be responsible for regular interaction with industry, organizing industry-specific development programmes, sponsorships and seminars.

DMS will not only cater to the needs of upcoming managers, but it will also design and develop course modules as per the industry needs. Since Jaipur is coming up fast on Mumbai-Delhi Industrial Corridor, it is the need of the hour for DMS to stand out as a premier B-School catering to the requirements of the industries coming up.

DMS is looking towards tie-ups with the world’s renowned management schools for interdisciplinary interaction, course development and student-exchange programmes.
India is going through very interesting and challenging times both economically and socially. This phenomenon makes us work towards social entrepreneurship. India is creating its own new grounds of global learning and practice out of its own diversity, complexity and philosophy. India's engagement with the world is dynamic and constantly evolving. It is our responsibility to create managers who develop a sustainable model leading to inclusive development.

DMS offers a two year, full-time programme leading to an MBA degree that develops leaders with an integrated understanding of all business functions. Students have two years to explore, and learn as much as they can. The curriculum includes a range of courses that take advantage of new teaching methods and the reinforcement of basic skills and concepts. The first year comprises of core subjects. In the second year students take a decision to specialize in a particular discipline like Finance, Human Resources, Marketing or Operations.
The MBA curriculum is structured as four semesters in two years. A total of 79 credits are covered during the whole programme. Students undertake 45 days Summer Internship Programme in various business firms across various management functions at the end of the 1st year of the programme and a live project of four months to get hands-on industrial experience.

The Doctoral Programme is globally recognized and is a premier source of rigorous and inter-disciplinary research in all areas of business management. The main objective is to encourage original work in different aspects of management and to develop scholars who go on to contribute towards its growth through teaching and research. Research areas cover supply-chain management, operations management, product development, quality, productivity, marketing and systems.

The Department also encourages interdisciplinary areas for research through a system of co-supervision and provides excellent opportunities for such programmes. The Department undertakes sponsored research and development projects from industry and other organizations, in the public as well as private sector.
A. Master of Business Administration (MBA)

Program Objective
MBA is a two year programme spread over four semesters. The programme seeks to train students to become decision-makers with a socially sensitive and broad strategic vision, and capabilities of assuming higher corporate responsibilities with a marked degree of flexibility in internal relationships.

Pedagogy
The Department believes that self-learning is the best means of learning, especially at the post-graduation level, and accordingly, the faculty should act as facilitators more than as teachers. Teaching is heavily oriented towards case-studies, presentations and assignments. A variety of seminars are organized by the faculty and students during the academic sessions.

Admissions
The Department of Management Studies conducts its own entrance test.

Intake
Number of seats: 62 (reservation as per Govt. of India norms)

Training and Industrial Project
To build the bridge between the theory and practice, students are required to spend 45 days on Summer Internship between the 2nd and 3rd semester and four months on-the-job live project in the 4th semester.

Course structure
The Department offers specialization in the following areas depending upon the number of students opting for specialization.
- Marketing Management
- Financial Management
- Human Resource Management
- Operations Management
B. Doctoral Programme (Ph.D.)

Program Objective
The award of Ph.D. degree is in recognition of high academic achievements, independent research and application of knowledge to the solution of industrial and scientific problems in Management. Creative and productive inquiry is the basic concept underlying research. The research work shall be an original work characterized either by the discovery of facts, or by a fresh approach towards the interpretation and application of facts. It shall evince the candidate’s capacity for critical examination and sound judgment and shall represent original contribution to existing knowledge in that area.

Pedagogy
The academic programme leading to the Ph.D. degree is broad-based and involves a course credit requirement and a research thesis. The Ph.D. programme consists of two stages. In stage 1, the research scholar is treated as a provisional student and he/she is to complete the credit requirement. Followed by this, the student has to take a comprehensive and oral examination. Successful completion of the coursework allows students to move further in the Ph.D. program.

Admissions
The Department of Management Studies conducts its own entrance test followed by an interview.

Intake
As per available slots with faculty members and is notified.

Customized Programmes

Customized programmes offered by the Institute are designed to meet the specific needs of our client organizations. The Institute partners with client organizations to disseminate state-of-art knowledge to all their managerial personnel through various customized programmes. The purpose is to achieve both individual and organizational learning.

Faculty Development Programme (FDP)

Faculty Development Programmes are being organized to improve faculty development, in general, and innovative teaching methods, in particular. DMS uses case-based and student-centered learning. The emphasis is on the individual development of the learner throughout his/her time at the Institute. Emphasis is on making the classroom approach highly interactive and to make faculty members look for new and effective ways to engage their students in the learning process.
Invited Lectures
Eminent people from academics and industry will share their views and experience on various aspects of management. The lectures will cover topics related to operations, marketing, finance and human resources.

International Conference
There will be an International Conference on ‘Management and Business Innovations’. It will be organized in the first week of April (5-6 April, 2013). Participants will delve into various methods to promote ownership, creativity and entrepreneurship in organizations. The success of the conference will be corroborated by the presence of industry leaders as knowledge partners.

National Conference
There will be a National Conference on ‘Contemporary Management Issues in the Era of Globalization’. It will be organized in the last week of August (23-24 August, 2013). Stalwarts from the industry, eminent faculty and the brightest young minds will exchange ideas and critically evaluate various issues pertaining to Marketing, Finance, Operations, Supply Chain Management and Entrepreneurship.

Industry-Institute Meet
Entrepreneurship Development Cell (EDC) will be connecting Industry and Academia through an interactive session during the Golden Jubilee Celebrations under Industry-Institute Meet. It will bring together eminent thought-leaders and policy-makers to debate issues facing the corporate world and makers of public policy.
Entrepreneurship Awareness Camp

To promote the idea of entrepreneurship and develop the inclination of budding managers to start their own enterprise, DMS will partner with the EDC to organize Entrepreneurship Awareness Camp wherein entrepreneurs will share difficulties faced by them, strategies they employed to counter those problems and the level of satisfaction they have.

National Level Business Plan Contest

DMS will partner with EDC, which will organize a National Level Business Plan contest, inviting academia, research scholars and professionals. Well-known management gurus and industry leaders will shortlist the plans. The contest will be organized in the last week of June (29-30 June, 2013). It will be an adventure for management students and will test their management knowledge, decision-making, and most importantly – strategic planning.

Student Activities

With cut-throat competition prevalent across almost all sectors of the economy today, business enterprises are increasingly turning towards the customer to understand their identity, needs, preferences and perceptions. Through various activities students will show their skills in marketing and will spend time understanding the changing consumer trends. To test their knowledge on business aspects, a national level business quiz and essay competition are also planned.

Various clubs will focus on organizing events in the areas of marketing, finance, human resources and entrepreneurship.
