

MALAVIYA NATIONAL INSTITUTE OF TECHNOLOGY JAIPUR
Department of Chemical Engineering

Expert Lecture by Mr. Diwakar Singhal under the Institute's Academia–
Industry Interaction Initiative

The Department of Chemical Engineering, MNIT Jaipur, in collaboration with the IChE Student Chapter and IChE Jaipur Regional Centre, successfully organized an invited talk on “**Global Opportunities for Chemical Engineers**” by **Mr. Diwakar Singhal**, Senior Vice President & Global Business Leader – Manufacturing at **Genpact**. The session was held on **6th November 2025**.

Speaker Highlights:

Mr. Diwakar Singhal, an esteemed alumnus of MNIT Jaipur and MBA graduate from IIM Mumbai, brought over 25 years of global leadership experience to the session. His career spans pivotal roles at Xerox, GE Capital India, and Genpact, where he currently oversees manufacturing operations across consulting, digital, technology, finance, supply chain, analytics, and engineering. He also serves on the BPM Council of NASSCOM, the Board of Governors at IIM Mumbai, and as an Independent Director at the Rajasthan Venture Capital Fund.

Session Overview:

The talk was tailored for **first-year Chemical Engineering students**, offering them a rare opportunity to engage with a seasoned industry leader. Mr. Singhal shared insights into:

- The evolving global landscape for chemical engineers
- Emerging interdisciplinary roles in manufacturing and digital transformation
- Strategic career planning and skill development
- The importance of adaptability, innovation, and global exposure

His interaction was both motivational and informative, bridging the gap between academic learning and industry expectations. Students were encouraged to explore diverse career paths and leverage their technical foundation to contribute to global challenges. He also encouraged students to enjoy their college life stress-free, focus on skill development, and actively participate in institute activities.
